

Alex Rivas — Introduction

Programming Language Concepts

February 2026

1 Introduction

Hello, My name is Alex Rivas and I am a computer science major; Senior at New York Institute of Technology. In this project, My role was to build the website using HTML. I contributed by using my prior programming knowledge of using HTML and other software engineering skills to build the website, I have experience in making my own website which allows me to also take lead in the group to assign and put together the presentation work.

Skills : [HTML],[MySQL],[Firebase]
